### **Naples Therapeutic Riding Center receives League Club grant**

Naples Therapeutic Riding Center, a nonprofit organization providing therapeutic horseback riding and other equine-facilitated group services to children and adults with physical, social and mental health needs, received a \$16,500 grant from The League Club Inc. from its Community Trust Fund. The grant will provide participant scholarships as well as support for general operations, which have been affected by the loss of revenue brought on by the suspension of programming due to the coronavirus.

Funding will also provide scholarships for equine-facilitated learning and psychotherapy groups which are provided in collaboration with local nonprofits serving the mental health needs of the region's most vulnerable populations. During the 8-week sessions, participants work directly with horses while engaging in a group process to help overcome challenges in their lives.

Grants awarded to 44 area nonprofits by The League Club of Naples total \$415,387 to provide basic humanitarian needs.
